

CLINICAL & HEALTHCARE WASTE CONTAINMENT

The complete colour-coded bag range for healthcare waste segregation.

Manufactured for compliant segregation under HTM 07-01. Every clinical sack is offered across four duty ratings — **5, 8, 10 & 20 kg** safe working load — with patient property and medication grip-seal bags completing the range.

Yellow Infectious clinical waste for incineration only.	Orange Infectious waste suitable for alternative treatment.	Tiger Stripe Offensive / hygiene (non-infectious) waste.	Black General & domestic household waste.	Clear See-through domestic & recycling waste.
